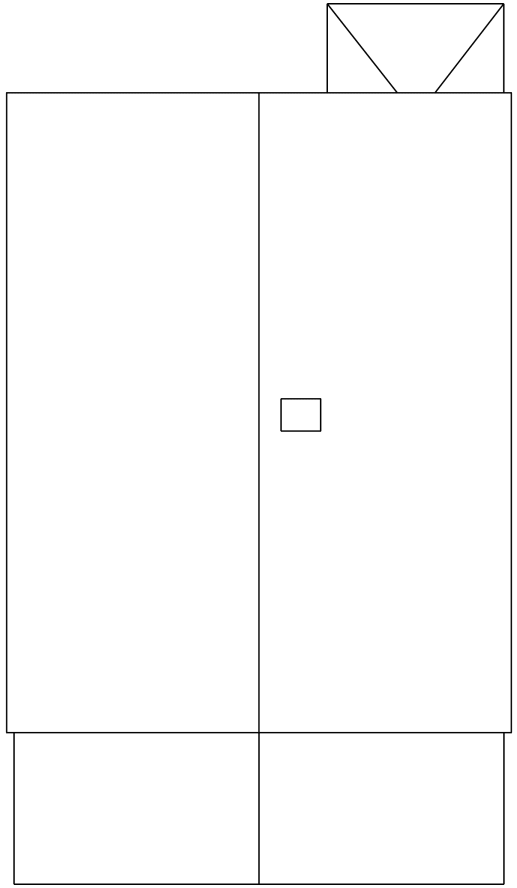
4 / 12	190 ft^2	16.87%
7 / 12	24 ft^2	2.13%
5 / 12	23 ft^2	2.04%



Example Waste Factor Calculations

	Zero Waste	+5%	+10%	+15%	+20%
Area	1126 ft^2	1182 ft^2	1239 ft^2	1295 ft^2	1351 ft^2
Squares	11⅓	12	12⅔	13	13⅔

The table above provides the total roof area of a given property using waste percentages as noted. Please consider that area values and specific waste factors can be influenced by the size and complexity of the property, captured image quality, specific roofing techniques, and your own level of expertise. Additional square footage for Hip, Ridge, and Starter shingles are not included in this waste factor and will require additional materials. This table is only intended to make common waste calculations easier and should not be interpreted as recommendations.

The first Siding Waste Factor table is calculated using the total ft² of siding facades, ft² of trim touching siding, and ft² of unknowns touching siding.

The tables above provide the area of siding on a given property, segmented by individual and in sum total form. Values include openings (doors & windows) and waste percentages as noted. Please consider that area values and specific waste factors can be influenced by the size and complexity of the property, captured image quality, specific siding techniques, and your own level of expertise. Accessories are not included in these values and may require additional material.

These tables are only intended to make common waste calculations easier and should not be interpreted as recommendations.
