AI Damage Observations LOW RISK

Soft Metals & Flashing
- 23 LF valley metal — include in scope. W-metal or ice-and-water underlap required.
- 14 LF step flashing — walls/dormers present. Verify each run matches adjuster scope.
- 8 LF apron/kickout flashing — critical for water intrusion claims.
- 114 LF rake — include drip edge on all rake edges per code.
- 124 LF eave drip edge — required along all eaves per IRC R905.

Roofing
- Standard cross gable roof — 15% waste. Normal scope expected.
- Steep pitch (11/12) — labor steep-slope supplement applicable. Verify carrier allows.

Gutters & Fascia
- 124 LF eave — full perimeter gutter replacement in scope. Include all downspout drops and miters.

Windows & Flashing
- Step flashing present — check adjacent window head flashing and J-channel integration.

Garage Doors
- Inspect garage door panels, trim, and J-channel for hail damage. Include in claim if dented.

22.7 SQ roof · AI-derived scope — verify field measurements before claim submission

Adjusted from your past jobs
These measurements were fine-tuned using differences between past AI estimates and your real reports and finished jobs.
Ridge ×1.01 · Hip ×1.00 · Valley ×1.00 · Eave ×1.00 · Area ×1.00
