Claims Audit

Verify every marketing and feature claim against the live app before running paid ads.

Auto-Verify All | Export CSV

3%	2	1	2	55
claims verified	Verified ✓	Partial ⚠	Broken ✗	Untested

All (60) | ⚠ Flagged only (13)

Click a status badge to cycle it

INSPECTION & PHOTO DOCUMENTATION

- Verified ✓ — Photos auto-sorted wide-to-tight per slope, with section labels applied automatically
- Verified ✓ — Professional inspection report generated in one tap from sorted photos
- Untested — Keyword detection in scope notes blocks submission until required photo is uploaded
- Untested — Evidence gates enforce zero missed required photos on every inspection
- Untested — One-tap toggle switches between Insurance Claim mode and Retail mode
- Untested — Retail mode removes all insurance evidence gates from the inspection flow
- Untested — Production photo triggers automatically require tear-off / decking photos during install
- Untested — Voice commands capture and categorize photos hands-free during inspection
- Untested — AI transcribes scope notes from voice during a hands-free inspection
- Untested — Hands-free mode works with Bluetooth earpiece / smart glasses

AI PHOTO ANALYSIS & EVIDENCE

- Untested — AI analyzes inspection photos for hail damage evidence
- Untested — AI analyzes inspection photos for wind damage evidence
- Untested — Storm data (hail size, wind speed for the date/address) is automatically linked to the inspection
- Untested — Brittle/granule loss test results are included in the 4-layer proof package
- Untested — Adjuster portal link gives real-time read-only access to the full claims defense package

AI ESTIMATING & CARRIER EXPORT

- Untested — AI reads inspection photos and generates a line-item estimate automatically
- Untested — Xactimate PDF export matches Xactimate's required line-item format exactly
- Untested — ⚠ Symbility XML export uses the correct carrier schema (not a close approximation)
- Broken ✗ — ⚠ Xactimate ESX file export produces a real .esx ZIP that Xactimate can import natively
  Current export is plain XML with .esx extension — Xactimate rejects it. Waiting on real .esx sample to reverse-engineer ...
- Untested — Symbility XML export ACV per-item equals RCV (depreciation only subtracted at Totals level)
- Untested — One click produces a carrier-ready PDF from an AI estimate
- Untested — Quick Entry Excel export (copy-paste into Xactimate Scope grid) works correctly

BUILDING CODE CITATIONS

- Untested — App detects discontinued / organic shingle products on an estimate

Untested State building code citations are automatically pulled for detected products

Untested Reason-for-replacement proof document is generated from the code citations

CRM & LEAD MANAGEMENT

Untested Visual drag-and-drop pipeline tracks leads from first contact to close

Untested Automatic follow-up alerts fire when a lead goes cold (configurable threshold)

Untested AI call screening captures inbound caller info and creates a lead record

Untested Lead records include full call transcript from AI screening

OPERATIONS & CREW MANAGEMENT

Untested Job specs are pushed to subcontractor / crew in real time when a job is assigned

Untested Crew photo check-ins are required at each job milestone

Untested Material delivery confirmations are tracked per job

Untested Live field map shows real-time rep locations and job status

Untested Jobs / leads can be dispatched directly from the field operations map

Untested Storm canvassing routes can be planned / optimized from the map

REVIEWS & REPUTATION

Untested Review requests are automatically sent when a job is marked complete

Untested Automated follow-up sequence fires if customer has not posted a review

Untested Review links work for Google

Untested Review links work for Facebook

Untested Review links work for Yelp

PLATFORM INTEGRATIONS

Untested Twilio SMS inbound / outbound works (messages delivered, replies received)

Untested Twilio voice inbound calls route correctly to AI receptionist

Untested Google Calendar two-way sync (events created in Google appear in app and vice versa)

Untested QuickBooks sync exports invoices correctly

Untested Stripe payment links work and payments record correctly

Untested Customer share portal / proof package link shows correct photos for an inspection

Untested Download Full Package PDF from share portal generates a real PDF (not JSON)

MARKETING STATS (NEED REAL DATA TO RUN PAID ADS)

Untested ⚠ AD COPY: "Contractors using CompanySync report up to 3X more claims approved" — VERIFY: collect 2+ written customer quotes with before/after numbers before running paid ads

Language qualified to "report up to" in all video scripts. Needs: 2+ customer case studies with actual supplement approv...

Untested ⚠ AD COPY: "Up to 45 min saved per estimate" — VERIFY: time 3+ real estimates before/after CompanySync (manual Xactimate entry typically takes 60-90 min per complex storm job)

Benchmark: 60-90 min manual Xactimate → ~5-15 min with AI Estimator = 45-75 min savings on a complex job. Plausible but ...

Broken "100% photo compliance" — DEFINITIONAL: evidence gates block submission until every required photo is captured — verify the gate

Broken

actually prevents bypass in all paths

PARTIAL: The claim is definitional by product design (gate blocks submission). Partial because end-to-end bypass paths n...

Untested

⚠ AD COPY: "Contractors report up to 2X faster retail close" — VERIFY: collect 2+ customer quotes comparing retail close time before/after using the mode toggle

Language qualified to "report up to" in all video scripts. Needs: 2+ customers tracking retail close rate who used the m...

Untested

⚠ AD COPY: "$2,400 avg decking supplement" — VERIFY: pull 5+ real completed decking supplement amounts from customer claim files; or cite a published roofing industry source

Language qualified to "around $2,400" in video scripts. Sources to check: NRCA industry reports, RoofingContractor.com s...

Untested

⚠ AD COPY: "$8,500 avg full-replacement win from building code argument" — VERIFY: pull 5+ real full-replacement values from customer claim files; or cite NRCA/industry source

Language qualified to "full-replacement wins averaging around $8,500" in video scripts. Needs: 5+ real claim values from...

Untested

⚠ AD COPY: "Contractors report up to 41% avg close rate increase" — VERIFY: collect 2+ customer quotes with actual close rate numbers before/after CompanySync CRM

Language qualified to "report up to 41% more leads closed" in video scripts. High-impact claim — FTC requires substantia...

Untested

⚠ AD COPY: "Contractors report up to 73% fewer rework callbacks" — VERIFY: collect 2+ customer quotes with actual callback counts before/after using job specs + photo check-ins

Language qualified to "report callbacks dropping by up to 73%" in video scripts. Needs: 2+ customers with actual callbac...

Untested

⚠ AD COPY: "Contractors report up to 3X faster roof inspection with hands-free voice mode" — VERIFY: time 3+ real inspections with and without voice mode

Language qualified to "report inspecting up to three times faster" in video scripts. Needs: 2+ timed comparisons. Same-s...

Untested

⚠ AD COPY: "Targeting 98% first-submission approval" — VERIFY: track actual Xactimate/Symbility submission outcomes from 20+ real customer submissions

Language changed to "targeting 98% first-submission approval" in video scripts (removes hard claim). Needs: real adjuste...

Untested

⚠ AD COPY: "Targeting claim approval in 14 days" — VERIFY: track actual claim cycle time from 10+ completed customer claims; current industry avg is ~30-45 days

Video script uses "so claims get approved in 14 days, not months" framing (aspirational). Needs: 10+ real claim cycle ti...

Untested

⚠ AD COPY: "Contractors report up to 28% more jobs per rep/day" — VERIFY: collect 2+ customers with jobs-per-rep dispatch metrics before/after using field ops map

Language qualified to "report getting up to 28% more jobs" in video scripts. Needs: 2+ field ops customers with tracked ...

Partial ⚠

"$850/mo saved vs 5 separate tools" — COMPETITIVE PRICING: FollowUpBoss ~$99 + photo app ~$49 + Xactimate ~$200 + AI receptionist ~$300 + canvassing ~$50 = $698-$900/mo for equivalent stack

PARTIAL: Competitive pricing math: FollowUpBoss/HubSpot $99-150 + photo doc $40-65 + Xactimate $150-200 + Ruby/Smith.ai ...
