Google Calendar Integration

Not Connected
Click "Connect Google Calendar" to link your account

Connect Google Calendar

How it works: Once connected, events sync between CRM and Google Calendar. Click "Setup Instant Sync" for automatic syncing, or use "Sync Now" to manually sync. Each team member connects their own calendar.

Time Zone

Default Timezone

Sets the timezone for all calendar events, reminders, and reports

Eastern Time (ET)

Tip: Setting the correct timezone ensures:

- Calendar events show at the right time
- Reminders trigger at correct hours
- Daily reports generate at end of business day
- No more midnight notifications for yesterday's events!

Company Notification Quiet Hours

Silence staff notifications overnight

Applies to all admins, office staff, and sales reps using the company timezone. Customer messages are not affected.

Silence after

10:00 PM

Resume at

07:00 AM

Save Quiet Hours

Language

Preferred Language

Choose the language for the entire CRM interface. This affects all users in your company.

English

Note: This sets the company-wide default. Individual staff members can go to their own profile and choose their preferred language independently — so your bilingual team is fully supported.

Source

Manage custom lead sources for your organization. These will appear in lead creation dropdowns.

yicnteam@gmail.com

Add

Inactive

yicnteam@gmail.com

Default sources: Website, Referral, Social Media, Storm Tracker, Property Importer, and others are always available.

Notification Preferences

Mute All Notifications
Temporarily disable all email and push notifications

LEADS & CUSTOMERS

- Lead Created
  - Only when created by others

Payment Deductions

Define custom deduction types for third-party fees that are withheld from payments before you receive them. When enabled, a "Record Fee Deduction" option appears on invoices with a remaining balance.

Enable Payment Deductions
Show the fee deduction option on invoices for this company.

Deduction Types

These are the names your staff will choose from when recording a deduction. Set a rate to have the fee amount calculated automatically on the invoice — leave it blank to type the dollar amount in each time.

Sedgwick Assignment and commission fee	9 %
e.g. Processing Fee, Management Fee, Adjustment	Rate %

+ Add

Save Deduction Settings

Rep ACH Payouts Add-on

Pay your sales reps directly to their bank account via ACH. Reps complete a one-time secure bank setup through Stripe (takes ~5 min). After that, you can send commissions straight from the invoice — no paper checks, no manual transfers.

Enable Rep ACH Payouts
Shows the "Send via ACH" option on commission splits for reps who have completed bank setup.

Staff Bank Account Status

Send each rep a bank setup link. They complete it once on Stripe's secure page — you never handle their account numbers.

Kevin L.Stone	unknown@gmail.com	No bank account set up	Send Bank Setup
Sedgwick MRP	io.companysync@gmail.com	No bank account set up	Send Bank Setup
Tamieka Kent	tskent2005@yahoo.com	No bank account set up	Send Bank Setup
Sania K	caniakhan25@gmail.com	No bank account set up	Send Bank Setup
Richard Stone	rich021970@gmail.com	No bank account set up	Send Bank Setup

victoria patindol	victoriafeliciapatindol@gmail.com	No bank account set up	Send Bank Setup
Kevin Stone	yicnteam@gmail.com	No bank account set up	Send Bank Setup

How it works
1. Enable this add-on and click "Send Bank Setup" for each rep.
2. Reps click the link and add their bank info on Stripe's secure page (~5 min).
3. On any invoice with a commission split, choose "Send via ACH" to pay them directly.

Fees: $0 per transfer for standard ACH (2–5 business days). Funds must be available in your Stripe balance from customer payments.

Save Payout Settings

My Preferences

Configure your personal device settings. These sync across all your sessions so you don't need to adjust them each time you open the camera.

Haptic Feedback
Vibrate the device when a photo is captured in PhotoSync. Supported on most Android devices.

Default Camera Facing
Which camera to open by default in PhotoSync. Back camera is typical for roof photos.

Back

Voice Mode
Start PhotoSync with voice commands enabled by default. You'll be prompted to activate it when the camera opens.
