Integration Manager

Connect external tools, pricing sources, and marketing platforms.

GoHighLevel Integration

Two-way sync with your GoHighLevel CRM

What GHL Integration Does:

- Auto-import GHL contacts as leads (GHL → CRM)
- Push new CRM leads to GoHighLevel (CRM → GHL)
- Sync opportunities, messages, and notes
- Real-time webhook updates

Configure GoHighLevel | Open GHL

JobNimbus Integration

Bring your contacts and jobs over from JobNimbus

What JobNimbus Integration Does:

- Import contacts as Leads/Customers (JobNimbus → CRM)
- Import jobs as Projects
- Safe to re-run — updates instead of duplicating

Configure JobNimbus | Open JobNimbus

Email Service (Resend)

Configure email delivery and smart glasses photo receiving.

Configuration Status

API Key Configured
System is ready to send emails.

Send Test Email

Smart Glasses Setup (Inbound)

To receive photos from smart glasses, configure your Resend dashboard:

1. Go to **Resend Dashboard > Webhooks**
2. Create new Webhook for your verified domain
3. **Webhook URL:** `https://getcompanysync.com/api/functions/smartGlassesEmailWebhook`
4. Select events: **Email Received**

Google Calendar

Advanced calendar settings and diagnostics

Connect Google Calendar from the Calendar page
Go to Calendar → Connect to enable two-way sync

Custom CSV | Paste Import | Xactimate | Symbility

Custom CSV Price List

Upload CSV files to import pricing data.

Enable Custom CSV Price List
Use uploaded CSV items in your estimates

Disabled

CSV Format Requirements

Format: Standard CSV with Description, Rate, Unit, Group Name columns

Example: "3-tab Shingle,312.25,SQ,Roofing"

Upload Destination

Xactimate New

Upload to 'Xactimate New' tab (Supports .plx and AI Extraction)

Upload CSV/PLX File (Max 50MB)

Choose File No file chosen

Upload File

Download Template

Integration Tips

- ✨ **Paste Import:** Copy pricing from Xactimate, Excel, or any CSV - instant import! (Recommended)
- **CSV Upload:** Bulk import large price lists from CSV files
- **AI Extraction:** Upload a PLX file to automatically extract roofing codes using AI
- **Multiple Sources:** Switch between Xactimate New, Custom, Symbility in your estimates
- **Updates:** Re-import anytime to refresh your pricing
