Alex Workspace

Sales Assistant • Lead Qualifier • Follow-up

Active

Live Dashboard | Campaigns | Performance | Test & Debug | Settings

Assistant Name

Choose a name for your AI voice assistant. This name will be used when speaking to your customers on calls.

Assistant Name

Alex

Your assistant will introduce herself by this name on calls and messages. Default is "Sarah".

Avatar

Upload New Avatar

Recommended: Square image, 500x500px or larger

AI Engine (Beta)

Engine

Gemini 2.0 Flash (Stable)

Gemini enables low-latency voice and better realtime performance.

Sarah's Voice

Choose the Gemini AI voice for incoming and outgoing calls

Voice Selection

Aoede — Warm, Clear ♀

Active voice: **Aoede — Warm, Clear** ♀ — Female — gentle and natural

Voice changes take effect on the next call. Your callers will hear the selected Gemini AI voice.

2 Phone Numbers & Activation

Configure Sarah's phone numbers and activate her voice.

You need a phone number from Twilio. Buy a Number if you don't have one yet.

Main Phone Number (for Sarah)

+12167777154

This is the number Sarah will answer. When someone calls this number, Sarah will pick up.

Not Connected

Outbound Caller ID

+12167777154

The number displayed when Sarah calls leads. Usually the same as your main number.

When enabled, Sarah will answer all incoming calls on your Twilio number. She'll greet callers using your brand name, save their info as leads, and can book appointments on your calendar.

Save & Activate Sarah Voice

Response Speed & Latency New

Normal (Balanced - Includes Typing Sounds)

Uses typing sounds and full memory. Best for natural feel.

Presence (Beta)

Customize the experience to mimic human conversation.

Assertiveness Level 36%

Soft suggestions — Direct & confident

Humor Level 20%

Serious — Witty

Personality & Behavior

Connected to AI Memory

Alex automatically reads from your **AI Memory** (website, PDFs, docs). You don't need to paste that info here.

Manage AI Memory →

Core Instructions (System Prompt)

Reset to Professional Default

```
- Ask ONE follow-up if needed
- Never repeat yourself

Triage (when unclear what they want):
- Sales interest? "Sounds like you're exploring the platform. Are you looking to try it out or just learning about features?"
- Technical question? "What specifically are you trying to do? I can walk you through how it works."
- Support issue? "Got it. Let me help you with that."
```

```
Avoid These:
- "How can I assist you further today?"
```

Customize Alex's voice, tone, and operating rules. The default focuses on empathetic, triage-first roofing support.

Business Info

Brand Short Name

YICN Roofing

How Alex introduces your company

Short SMS Mode

Keep messages concise for SMS

Max SMS Characters

180

Character limit for SMS responses (default: 180)

Scheduling
